

## **Translation of e-mail received from Andre Kruger (20 July 2015)**

hi johan,

DIE SANDDRAAI PROJEK WORD BESWAAR TEEN AANGETEKEN VIR DIE VOLGENDE REDES;

1. DIE TOEGANGS PAAIE SE TOESTAND IS GEENSINS AANVAARBAAR NIE AS GEVOLG VAN DIE VOLUME VAN VERKEER OP DIE PAAIE DEUR DIE ONTWIKKELAARS EN AFDWINGBARE KONTRAKTE MOET AS VOORVEREISDE AANGEGAAN WORD ALVORENS VERDERE BEPLANNING GEDOEN KAN WORD.

2. DIE BESKIKBAARHEID VAN WATER IN DIE ORANJE IS N OPE VRAAG EN SISTEME AFHANKLIK VAN DIE GEBRUIK VAN WATER UIT DIE RIVIER IS GEENSINS OORWEEGBAAR NIE. SIEN OOK SADC EN ASSOCOM OOREENKOMSTE EN DIE VEREISDE VOLLEDIGE EIA EN NIE SLEGS BAR VERSLAE, WAT VEREIS WORD,

3. SIE STOF AS GEVOLG VAN DIE GEBRUIK VAN DIE TOEGANGS PAAIE IS N VERDERE PROBLEEM EN MOET OOREENKOMSTE SO SPOEDIG MOONTLIK AANGEGAAN WORD OM DIE STOF TE BEHEER OP N DAAGLIKSE BASIS.

4. DIE GENOEMDE OOREENKOMSTE MOET AS VOORVEREISDE GESTEL WORD EN VOLLEDIG AFGEHANDEL EN IN PLEK WEES VOORDAT ENIGE VERSLAE AAN DEPT OMGEWING SAKE VOORGELE WORD VIR OORWEGING ,DEUR ALLE VOORNEMENDE ONTWIKKELAARS.

GROETE

ANDRE KRUGER

Hi Johan

Appeal against the Sand Draai project is being raised due to the following reasons:

1. The state's access roads are in appalling conditions due to the high volume of traffic on the roads by developers and contractor's. This matter must be addressed before any site development/ construction is undertaken.
2. The availability of water from the river is in question and therefore it cannot be allowed that water be obtained for construction or operational purposes. Mr Kruger also recommended that the SADC and ASSOCOM agreements be looked at including the required EIA and not just the BA reports.
3. All I&APs indicated that the dust generated from the gravel road between the N8 & N14 is a source of major concern. They also indicated that the amount of dust being generated by the road is affecting their produce and livestock which in return affects their income.
4. He further stated that all agreements and solutions being decided on to mitigate or prevent

any further impacts must be set prerequisites to ensure that they are being followed. All solutions must also be completed before any reports are submitted to the Department of Environmental Affairs for consideration by all prospective developer.

Greetings

Andre Kruger
