

**Plate 1: North facing – The proposed Emergency Nondabula Water Reticulation project shall follow existing road servitudes within Ozwathini (such as is pictured). Access to site is via the R614 from Tongaat travelling towards Wartburg.**

**Plate 2: North-east facing**

**Plate 3: East facing**

**Plate 4: South-east facing**

**Plate 5: South facing**

**Plate 6: South-west facing**

**Plate 7: West facing**

**Plate 8: North-west facing**

**Plate 9: The proposed alignment will avoid impacts on agricultural activities within transformed plateau grasslands by following existing road servitudes.**

**Plate 10: The proposed alignment will avoid impacts on relic patches of KwaZulu-Natal Sandstone Sourveld by following existing road servitudes.**

**Plate 11: The proposed alignment will also avoid impacts on existing wetlands by following existing road servitudes; although many of these have been largely transformed.**

**Plate 12: The proposed alignment will be following a number of existing road servitudes adjacent to commercial woodlots.**
