Associate
Transport, Rail and Planning

T: +27219367600

F: +27219367611

Email: bronwen.griffiths@rhdhv.com

Bronwen has operated in a range of environmental sectors – since 2013 as Senior Environmental Consultant and Environmental representative for the region, Cape Town office. Previously, Bronwen was Chief Environmental Scientist at AECOM South Africa, and for 12 years previously ran her own environmental consultancy, her main contract as a City of Johannesburg Environmental Manager.

Her area of expertise is Environmental Impact Assessment (EIA) and related permitting, functioning as project manager and provision of environmental specialist knowledge. She deals with a range of environmental projects, including mixed land-use, industrial, petrochemical projects, waste-specific projects (e.g. Klinkerstene Regional landfill) – from feasibility and screening studies (e.g. Department of Water Affairs' uMkhomazi Water Transfer Project), EIA processes, to environmental management post-authorisation. Bronwen functions as environmental assessment practitioner, project manager, and, supervisor for the related project teams as required. Bronwen has been author / co-author of a number of environmental guideline documents for all three tiers of government
